

Read this before the referee has to stop the game:

AYSO is a recreational soccer league run by all volunteers.

Please give your **full support** to the **referees**. They are moms, dads and older siblings who volunteer their Saturdays to make soccer Safe, Fair and Fun **for your child**. They may be just learning the game and **will make mistakes**. Even so, **they should not be yelled at or told that they missed a call**.

Region 10 has a strict policy where **any spectator will be asked to stop making comments** toward or about the referees. They may be shown a **“yellow card”** by the referee as a warning.

Further comments **will result in the spectator being asked to leave the field immediately**. If the spectator does not leave, the game can be terminated by the referee.

We do not want to have any spectator removed, but we also want to make our volunteers' experience positive. If you see any referee struggling, please let the Regional Referee Administrator know so they can be mentored. Their contact info is on our site: AYSO10.org

Remember, this is all for the kids: there are no college scouts here, and this is not the World Cup. Please keep things positive for the kids and volunteers who give up their time freely.
